Educator Account

Get full access to all our educator resources for free. Create classroom projects (class codes) so you can easily administer your groups on our website. This account requires a short verification/approval process.

Class codes help you group students together for projects. You will need to create a class code before your project begins and before your students register. You are welcome to create multiple class codes for many different groups and timelines (for example, honors students/spring2017). Creating these unique class codes will make it easy to organize your students' classwork throughout the year and to view and share your students' submitted content.

Create an Organizer to organize, display and share all your classes' content.
