Watch and Learn

Watch some award-winning films from the MY HERO International Film Festival. Notice the ways in which clips are arranged together and the impact they make. Click the [link](#) for films.

RASSESS, REGATHER, REWRITE

As you continue to edit, keep in mind the following things:

- *What additional footage, original or archival, would improve this cut of the film?*
- *Do I need to do another interview or re-shoot b-roll, due to problems with the quality of the footage?*
- *Do I need to do a follow-up interview because I just realized some important questions I didn't ask?*
- *How should I revise my outline, based on how the editing has gone so far?*
